Re: Status of Compliance
Pollution Control Industries of America
East Chicago, Lake County

Dear Mr. Oslan:

This is in response to our phone conversation of May 11, 1989, concerning the eligibility of Pollution Control Industries of America (PCIA) to receive wastes from "CERCLA" clean-up sites (CERCLA recipient).

Eligibility to receive wastes from CERCLA clean-up sites is determined by U.S. EPA, not the State of Indiana. However, the U.S. EPA's determination is based on the facility's substantial compliance with the hazardous waste rules, as documented by inspections conducted by the Indiana Department of Environmental Management. Enclosed is a copy of U.S. EPA's "CERCLA off-site policy" and related documents for your reference.

PCIA was most recently inspected by Mr. Ted Warner of my staff on March 14, 1989. The inspection revealed that the facility was in compliance with the hazardous waste rules with the exception of some minor manifest violations. Ms. Gertrud Matuschkovitz of the U.S. EPA, Region V, Chicago Illinois, was provided written notification by Mr. Warner that the facility was in compliance with respect to CERCLA eligibility.

If you have any questions relative to this issue, please contact me at AC 317/232-4535.

Very truly yours,

James M. Hunt, Chief
Compliance Monitoring Section
Hazardous Waste Management Branch
Solid and Hazardous Waste Management
